# MISSION STATEMENT

RANCHING, CONSERVATION, COMMUNITIES –  
A WINNING TEAM!

---

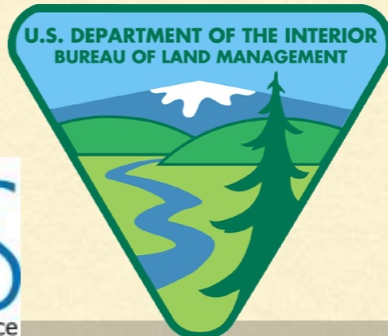

---

# CONSERVATION COMMITTEE

In 2020, RSA committed more than \$194,000 to local ranches for on-the-ground conservation projects in North-Central Montana.

- More than 28 miles of boundary, wildlife-friendly fence
  - More than 4,400 acres seeded to native grasses
  - 10 new livestock tanks with bird escape ramps installed
  - 18,000 feet of water pipeline for enhanced stock water systems
  - Five new wells for stock tanks.
-

Since Ranchers Stewardship Alliance's first grant in 2017, we have worked with **38 family ranches to impact more than 50,000 acres via restoration or enhancement of grazing lands.** We have leveraged NFWF's investment more than 5:1 with total project costs exceeding \$3.3 million to date spent into our rural community and impacting our grasslands.
